

Purpose built cover for the construction industry

Who is SURA Construction?

SURA Construction offers purpose built insurance cover for the construction industry. With a reputation for specialist industry know-how, sector-specific underwriting expertise and a claims service that stands behind our promises, our blueprint is to help our preferred network brokers make sense of construction insurance complexities so their clients stand on solid foundations.

Coverage

Our products include:

- ▶ Annually renewable Construction Insurance policy (intended for builders doing several jobs a year)
- ▶ Single Project Construction Insurance policy (ideal for Principals, complex projects or large Contract Values)
- ▶ Owner Builder Construction Insurance policy (tailored to people building their own home under an Owner Builder Permit).

Each policy form contains a separate section for Material Damage and Public Liability.

For our Building Contractors seeking cover under the annually renewable form we now offer an expanded indemnity for Products Liability (by Endorsement) subject to certain underwriting criteria being met. And in relation to hired in plant the coverage has been significantly clarified.

Appetite

- ▶ Builders doing several construction jobs annually
- ▶ Single construction projects
- ▶ Home owner builders.

In addition to the above, for our preferred network brokers, we are able to underwrite most dry civil works as well as commercial and industrial builds as single projects or on an annual policy.

What makes us different

- ▶ Each policy form contains a separate section for Material Damage and Public Liability
- ▶ For our building contractors seeking cover under the annually renewable form we now offer an expanded indemnity for Products Liability (by endorsement)
- ▶ Clear descriptions of coverage relating to hired-in-plant
- ▶ Policy can be extended to include Display Homes and Vacant Land awaiting sale.
